### RECOMMENDATIONS

To climb mountains is necessary to have the specific equipments for this activity, to know their correct use and the progression techniques of the climb.

The shocks caused by a fall are extremely violent. No material resist shocks.

This is the reason why the use of the heatsink is compulsory.

### ADVICES

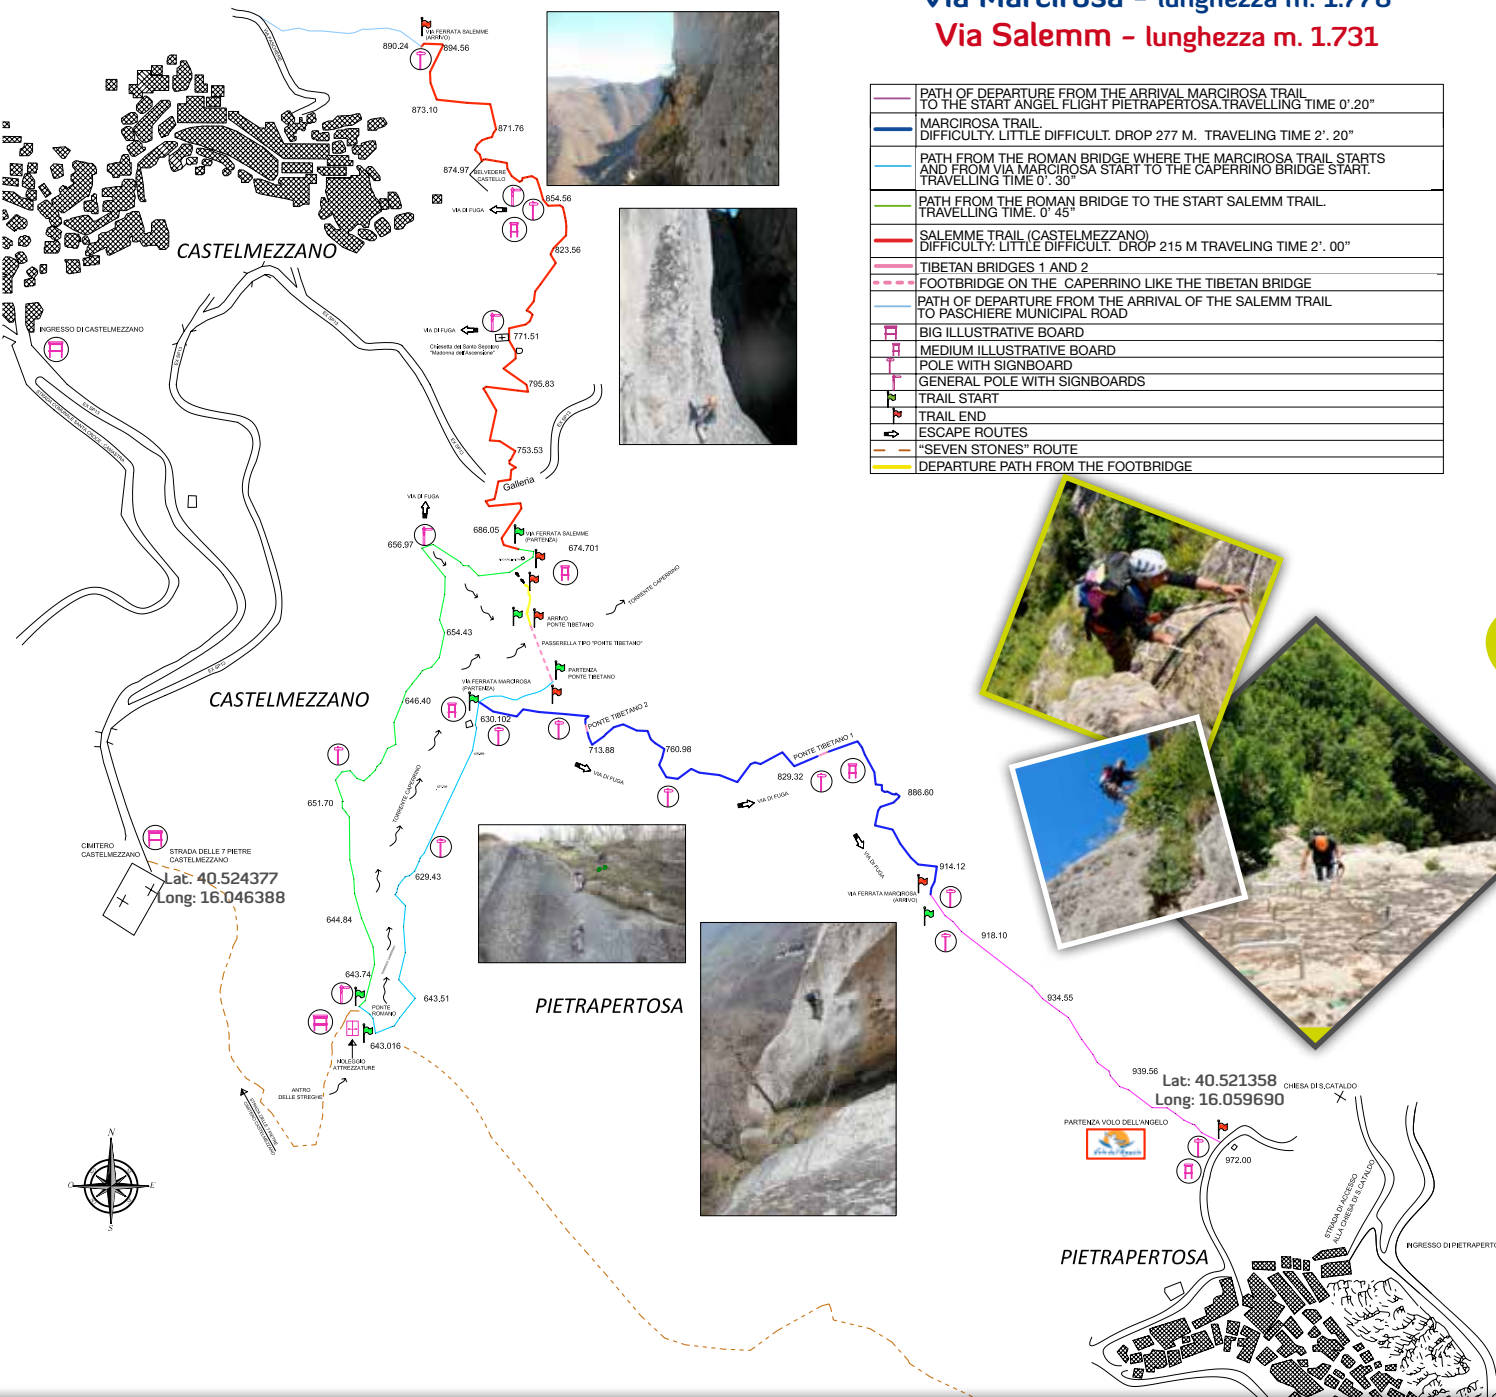

To all, but especially for beginners, We recommend to be accompanied by experts - information guides 0971 986042 (**Castelmezzano**) 0971 983 110 (**Pietrapertosa**) 334 7880084/331 9340456 [www.ledolomitilucane.com](http://www.ledolomitilucane.com)

### MINIMUM EQUIPMENT RECOMMENDED

- Helmet for mountaineering,
- Harness
- Complete set for a Y route with a fall energy dissipation absorber and two mountaineering connectors type K.
